AUTHOR INDEX

The letters SA preceding the page number designate authors of special signed articles; the letter N indicates authors mentioned in the Notes section; LE refers to authors of letters to the Editor; and B designates authors of recent books listed in the Notes section.

Names beginning with Mc are indexed before those beginning with Ma.

SUBJECT INDEX

The letters SA preceding the page number designate a special signed article; N refers to articles or letters in the Notes section.

Absorption
alanine, role of sodium in, 266
calcium
effect of dibutyryl cyclic AMP on, 265
effect of magnesium intake on, 129
in germ-free rats, 101
in newborn infants, 226
relation to thyrocalcitonin, 99
role of calcium-dependent ATPase in, 269
role of vitamin D in, 21
cholesterol, studies in man, 11
fat, in newborn infants, 226
magnesium, in germ-free rats, 101
monosodium glutamate, 158
phosphorus, in germ-free rats, 101
riboflavin, in the newborn, N275
triglyceride, relation to configuration, 65
Acetate
conversion
to fatty acids, chain length distribution, 106
to mevalonate, cholate inhibition of, 49
Acetyl CoA
product of unsaturated fatty acid oxidation, 165
Acidosis
renal, from excessive cyclamates, 122
ACTH (*see* Hormones)
Actinomycin
effect on prothrombin synthesis, relation to vitamin K, SA171
inhibition of prothrombin synthesis by, 271
Active Transport
amino acids, 266
calcium, mechanism, 269
Activity
physical, following ventromedial nucleus destruction, 298
Adenine
feeding, effect on methionine toxicity, 293
Adenosine Triphosphate
levels in liver, in methionine toxicity, 293
Adipose
tissue
energy requirements for lipogenesis, 214
fat synthesis in, relation to feeding frequency, 234
in the pig, effect of dietary copper on, 244
Adrenal
function, in emotionally deprived children, 36
hydroxysteroid dehydrogenase in, in vitamin A deficiency, 190
role in copper metabolism, 232
Aflatoxin
poisoning, in India, SA3
Africa
development of fish pond farming in, 155
plants of, sweetening substances in, 95
Agar
as bulking agent, possible dangers of, N109
Age
relation to riboflavin absorption, N275
relation to zinc content of hair, 209
vitamin supplementation for older people, 260
Aging
premature, from progeria, 9
Albumin
synthesis, development after birth, 131
Alpha-Glycerophosphate
in brain, after excessive galactose feeding, 239
Amino Acids
absorption, role of sodium in, 266
alanine
absorption studies, 266
formation from glutamate consumed, 158
arginine
lack in amino acid diets, liver damage from, 229
plasma level, in maternal undernutrition, 91
aspartic acid, formation from hydroxy-4-keto-valerate, 295
composition, of sweetening protein of miracle fruit, 95
cystine, selenium cystine, effect on tumor growth, 75
dietary, relation to polysome aggregation, 25
glutamic acid
absorption and metabolism, 158
formation from hydroxy-4-keto-valerate, 295
relation to intellectual functions, 124
glutamine, production from glutamate consumed, 158
glycine:valine ratio, in plasma, in maternal undernutrition, 91
glycine
conversion to urea, method for measuring protein turnover, SA115
plasma level, in maternal undernutrition, 91
histidine
from hemoglobin breakdown, 229
lack in amino acid diets, liver damage from, 229
incorporation into albumin, development after birth, 131
leucine
absorption studies, 266
excess in jowar, relation to pellagra, SA3
lysine, flux, method for measuring protein turnover, SA115
metabolism, in progeria, 9
methionine, toxicity, mechanisms for, 293
ornithine
in liver of sheep fed urea, 192
plasma level, in maternal undernutrition, 91
phenylalanine, diurnal variations in serum level, 151
plasma levels, in maternal undernutrition, 91
requirements, in horses, 194
selenomethionine, use in measuring protein turnover, SA115
synthesis, in rumen, of sheep fed urea, 192
tryptophan, relation to polysome aggregation, 25
Ammonia
metabolism, in ruminants fed urea, 192
Anemia
in Costa Rican children, relation to diet and hookworm infection, 289
in marasmic pigs, 43
pernicious, possible synthesis of abnormal fatty acids in, 301
physical training, SA251
pregnancy, in India, SA3
zinc, ceruloplasmin activity in, SA87
Antibody
formation, after asparaginase treatment for leukemia, 206

XUM

Antimetabolites
chloro-vitamin K_1, inhibition of prothrombin synthesis by, 271
Appetite
changes
after recovery from protein-calorie malnutrition, 118
after vitamin supplementation in older people, 260
control, by hypothalamic feeding center, 216
relation to brain temperature, 17
Ascorbic Acid
intake, changes through Mothercraft Center education, SA307
Astronauts
balance studies in, 256
Atherosclerosis
in progeria, 9
in Squirrel monkeys, 15
relation to calcium intake, 179
ATP
brain levels, after excessive galactose feeding, 239
Atrophy
muscle, protein catabolism during, 45
Availability
copper, for ceruloplasmin synthesis, in Wilson's disease, 291
fluoride, from fish protein concentrates, 235
nutrients, relation to agricultural planning, SA143

Bacteria
biotin synthesis in, 189
rumen, ammonia metabolism in, 192
Basal Metabolic Rate
in malnutrition, SA279
Bile Acids
absorption, after intestinal bypass operation, 185
excretion
effect of dietary cholesterol on, 11
effect of dietary fatty acids on, 34
inhibition of cholesterol synthesis by, 49
secretion, in germ-free rats, 101
Bilirubin
blood levels
after asparaginase treatment for leukemia, 206
after intestinal bypass operation, 185
Biotin
deficiency, oxidation of unsaturated fatty acids in, 165
effect on liver glucokinase activity, in diabetic rats, 242
synthesis, pelargonate intermediates in, 189
Blood (*see also under individual constituents*)
coagulation, factors, role of vitamin K in synthesis, SA171
plasma, zinc in, measure of zinc nutriture, 209
pressure, correlation with incidence of cardiovascular disease, 281
Body Composition
changes
after exercise, 150
of children during recovery from marasmus, 118
relation to type of dietary carbohydrate, 80
Body Weight (*see* **Weight, Body**)
Bogota
organization of Mothercraft Centers in, SA307
Bone
changes, in progeria, 9
density, changes in astronauts, 256
growth, in familial rickets, 63
marrow, activity, in marasmic pigs, 43

Vitamin B_6 in Metabolism of the Nervous System. M. A. Kelsall, Editor. New York Academy of Sciences. 28.
Wheat in Human Nutrition. W. R. Aykroyd and J. Doughty. FAO. 248.

Brain
cells, inhibition of growth by galactose, 55
damage in chicks, from galactose toxicity, 239
effects of monosodium glutamate on, 124
fatty acid synthesis in, N110
glutamate levels, after monosodium glutamate feeding, 158
metabolism of pyridoxine in, 163
size, in fetus from mothers fed galactose, 55
temperature, relation to food intake, 17

Bread
enrichment with iron, new recommendations, N108
fortification with iodine, in Tasmania, 212

Burns
total parenteral feeding after, 286

Calcium
absorption
effect of dibutyryl cyclic AMP on, 265
in germ-free rats, 101
in newborn infants, 226
role of intestinal ATPase in, 269
role of vitamin D in, 21
binding, in intestine, 21
blood levels
effect of thyrocalcitonin on, 99
in magnesium deficiency, 72
deposits in kidney, relation to parathyroid activity, N167
excretion, in familial rickets, 63
hypercalcemia, prevention by thyrocalcitonin, 99
intake
changes through Mothercraft Center education, SA307
contribution from hard water, 179
loss, of astronauts, 256
metabolism, effect of magnesium, 129

California
foodstuffs in, calcium and magnesium content, 179

Caloric Intake
changes
during recovery from malnutrition, SA279
through Mothercraft Center education, SA307
deficiency, usefulness of protein concentrates in, 67
distribution, in Nigeria, SA143
effect on protein needs, SA223
needs, during total parenteral feeding, 286
of children during recovery from marasmus, 118
relation to glucose tolerance, 135

Cancer
asparaginase in treatment of, 206
relation to selenium, 75

Carbohydrate
conversion to fat, relation to feeding frequency, 234
dietary
relation to exercise endurance, 180
relation to plasma lipoprotein composition, 153
fructose, utilization by young pig, 132
galactose
toxicity for growth of brain cells, 55
toxicity for the chick, 239
glucose
blood levels
effect on insulin secretion, 93
in methionine toxicity, 293
brain levels, after excessive galactose feeding, 239
dietary, effect on triglyceridemia, in hyperlipoproteinemias, 204
feeding, effect on polysome aggregation, 25
needs, for total parenteral feeding, 286
tolerance
effect of potassium supplementation in fasting obese patients, 177
in hyperlipoproteinemias, 204
in Squirrel monkeys, 15
relation to caloric intake and feeding frequency, 135
glycogen
energy source in exercise, 180
in liver, in methionine toxicity, 293
intake, smokers versus non-smokers, 228
lactose, feeding induction of lactase by, 138
lipogenesis from, energy requirements, 214
metabolism
following ventromedial nucleus destruction, 298
in the Squirrel monkey, 15
sucrose
dietary, effect on fat formation, 80
utilization by the young pig, 132
types, conversion to lipids, N303
utilization, effect of dietary protein on, 80

Cassava
production, in Nigeria, contribution to nutrient needs, SA143

Cells
brain, fetal, inhibition of growth by galactose, 55

XUM

Cellulose
as bulking agent, possible dangers of, N109
Central Nervous System
effect of caffeine on, 38
Cereal
enrichment with iron, new recommendations, N108
Ceruloplasmin
levels
effect of adrenal hormones on, 232
in copper deficiency, 291
role in copper and iron metabolism, SA87
synthesis, effect of molybdenum on, 82
Chick
brain damage in, from galactose toxicity, 239
sulfate metabolism in, 73
Children
buccal smears of, use as indicator of nutritional status, 254
Costa Rican, anemia in, relation to hookworm infection, 289
diarrhea in, in Guatemala, 61
feeding of, impact of food technology on, SA31
growth failure in, association with emotional deprivation, 36
Indian
malnutrition in, SA3
protein and caloric needs of, SA223
malnourished, in India, usefulness of protein concentrates for, 67
malnutrition in, Mothercraft Centers to combat, SA307
obesity in, relation to excessive weight gain in infancy, 184
phenylketonuric, growth following treatment, 151
premature senility in, 9
protein-calorie malnutrition in, weight gains during recovery, 118
Chinese Restaurant Syndrome, 158
Cholate
inhibition of mevalonate synthesis, 49
Cholesterol
absorption, studies in man, 11
blood levels
after asparaginase treatment for leukemia, 206
in man, effect of cocoa butter and corn oil diets on, 34
in progeria, 9
relation to diet, 281
catabolism, effect of exercise on, 211
excretion, effect of dietary unsaturated fatty acids on, 34
feeding, effect on HMG-CoA reductase activity in liver, 103
in plasma lipoprotein, relation to dietary carbohydrate, 153
synthesis
diurnal variation in, 103
effect of dietary cholesterol on, 11
in liver, factors affecting, 49
transport in lipoproteins, relation to micellar structure, 65
Cholestyramine
effect on cholate inhibition of mevalonate synthesis, 49
Chromatin
intestinal mucosa, effect of vitamin D on, 21
Coagulation
factors, role of vitamin K in synthesis, SA171
Cocoa Butter
dietary, effect on steroid excretion, 34
Coenzymes
flavin adenine dinucleotide, in succinate dehydrogenase, effect of dietary riboflavin on, 23
methylmalonyl-CoA, effect on fatty acid synthesis, 301
pyridoxal phosphate, formation from pyridoxine in the mouse, 163
Coffee
drinking, effects on man, 38
Convulsions
in the chick, from excessive galactose feeding, 239
Copper-Molybdenum Complex, 82
Corn
oil
dietary
effect on steroid excretion, 34
with ethanol, effect on lipemia, 162
Cornification
buccal cells, relation to malnutrition, 254
Corticosterone (*see* **Hormones**)
Cortisone (*see* **Hormones**)
Costa Rica
children, anemia in, relation to hookworm infection, 289
Creatine
excretion, in progeria, 9
Creatinine
clearance, in magnesium deficiency, 72
Cyclamates
ingestion, dermatitis from sunlight following, 122
Cyclic AMP
dibutyryl, effect on intestinal calcium absorption, dependence on vitamin D, 265
Cycloheximide
inhibition of prothrombin synthesis by, 271
Cyclohexylamine
product of cyclamate metabolism, 122
Cytology
buccal smears, use as indicator of nutritional status, 254

Death Rate
from cancer, relation to blood selenium levels, 75
from heart disease, relation to hard water intake, 179
Delta Amino Levulinic Acid
formation from hydroxy-4-keto-valerate, 295
Denver
study of malnutrition in children, 176
Dethiobiotin
intermediate in biotin synthesis, 189
Diabetes
alloxan
effect on polysome aggregation, 25
fatty acid synthetase levels in, 41
in Squirrel monkeys, 15
insulin secretion in, effect of blood glucose and fatty acids on, 93
lipemia from excess carbohydrate in, 153
liver glucokinase in, effect of biotin on, 242
in Guatemalan children, 61
Dibutyryl Cyclic AMP
effect on intestinal calcium absorption, dependence on vitamin D, 265
Diet
bulking agents in, possible dangers of, N109
calcium, contribution of hard water to, 179
carbohydrate
relation to body composition, 80

relation to exercise endurance, 180
relation to plasma lipoprotein composition, 153
changes, with family income, SA199
costs, in Nigeria, SA143
cyclamates in, dermatitis from sunlight following, 122
fat
effect on steroid excretion, 34
relation to exercise endurance, 180
galactose in, effect on growth of fetal brain cells, 5
habits, smokers versus non-smokers, 228
Indian, nutritive content of, SA3
iron levels in, recommendations for increased levels, N108
magnesium, contribution of hard water to, 179
phenylalanine-low, for phenylketonurics, 151
relation to cholesterol synthesis, 49
relation to polysome aggregation, 25
riboflavin, effect on FAD in succinate dehydrogenase, 23
selenium in, relation to cancer, 75
sugar in, smokers versus non-smokers, 228
supplementation with vitamins, for older people, 260
survey, of saturated fat intake and cardiovascular disease, 281

Disease
diarrhea, etiology in Guatemala, 61
familial rickets, treatment with vitamin D, 63
gout, plasma glutamate levels in, 158
lathyrism, in India, SA3
Parkinsonism, drug treatment of, 7
phenylketonuria, growth and nutrition after treatment, 151
progeria, premature senility from, 9
Wilson's
ferroxidase (ceruloplasmin) activity in, SA87
metabolic defect in, 291

Diurnal Rhythm
in cholesterol synthesis, 49, 103

Drugs (*see also* **Antibiotics, Antimetabolites**)
actinomycin, inhibition of prothrobin synthesis by, SA171, 271
amantadine, in treatment of Parkinsonism, 7
caffeine, effects in man, 38
cortisone, effect on protein catabolism in muscle, 45
cyclamates, dermatitis from sunlight following, 122
cycloheximide
effect on cholesterol synthesis, 49
effect on prothrombin synthesis, relation to vitamin K, SA171, 271
dopa, in treatment of Parkinsonism, 7
hydroxy-coumarin, antagonism of vitamin K, SA171, 271
phenobarbital, effect on protein turnover in endoplasmic reticulum, 51
puromycin, inhibition of prothrombin synthesis by, 271
tolbutamide, tolerance test, in Squirrel monkeys, 15
warfarin, effect on prothrombin synthesis, SA171, 271

Dwarfism
in familial rickets, 63

Eating
habits, effect of food technology on, SA131

Economics
of nutrient production, SA143
of nutrition, in national development, SA199

Education
nutrition, in Mothercraft Centers, SA307

Electroencephalogram
changes, after asparaginase treatment for leukemia, 206

Emotion
deprivation in infants, growth failure from, 36

Endoplasmic Reticulum
protein turnover in, 51

Energy
efficiency of use in milk production, 262
metabolism, in progeria, 9
requirements, of lipogenesis, 214
sources for exercise, 180

Enzymes
acyltransferase, for phospholipid synthesis, in mitochondria, 236
alanine transaminase, blood level on diet lacking arginine or histidine, 299
alkaline phosphatase
blood levels
after asparaginase treatment for leukemia, 206
in familial rickets, 63
in progeria, 9
arginine synthetase, in liver, in sheep fed urea, 192
asparaginase, in cancer treatment, 206
aspartic transaminase, blood level on diet lacking arginine or histidine, 229
ATPase
calcium-dependent, effect of vitamin D on, 269
in mitochondria, from cells grown in lipid free media, 68
cytochrome b_5, turnover in microsomes, 51
fatty acid synthetase, net synthesis on refeeding, 41
ferroxidase (ceruloplasmin) SA87
fructokinase, activity in the young pig, 132
galactocerebroside sulfokinase, activity in brain, in malnutrition, N110
galactose-1-phosphate uridyltransferase, in brain, after excessive galactose feeding, 239
glucokinase, in liver, effect of biotin on, 242
glucose-6-phosphate dehydrogenase, relation of activity to feeding frequency, 234
glyceraldehyde phosphate dehydrogenase, strain differences in levels of, N111
glycerophosphate dehydrogenase, strain differences in levels of, N111
hydroxysteroid dehydrogenase, activity in vitamin A deficiency, 190
HMG-CoA reductase, in liver, diurnal variation in activity, 103
ketoglutarate:glyoxylate carboligase, activity in thiamine deficiency and primary hyperoxaluria, 295
lactase, inducibility of, 138
malic enzyme, relation of activity to feeding frequency, 234
maltase, activity on high lactose diet, 138
NADPH-cytochrome c reductase, turnover in microsomes, 51
phosphofructokinase, level in liver, effect of biotin and insulin on, 242
phosphogluconate dehydrogenase, relation of activity to feeding frequency, 234
phospholipase A_2, in mitochondria, 236
pyruvate kinase

level in liver, effect on biotin and insulin on, 242
strain differences in levels of, N111
succinate dehydrogenase, flavin in, influence of dietary riboflavin on, 23
sucrase, activity on high lactose diet, 138
transaminase
blood levels, after asparaginase treatment for leukemia, 206
in sheep fed urea, 192
turnover, in endoplasmic reticulum, 51
urea cycle, in liver of sheep fed urea, 192
urease, activity in rumen bacteria, 192
Epilepsy
treatment with glutamate, 124
Epinephrine (*see* **Hormones**)
Erratum, 196
Erythrocyte
destruction, in muscular exercise, SA251
responses, in marasmic pigs, 43
zinc in, measure of zinc nutriture, 209
Erythropoietin
levels, in marasmic pigs, 43
Ethanol
and dietary fat, effect on lipemia, 162
Exercise
effect on cholesterol catabolism, 211
energy sources for, 180
for sedentary males, effect on body composition, 150
Exsorption
sodium, role in amino acid absorption, 266
Eye
retinal changes, after glutamate administration, 124

Family Planning
programs, relation to nutrition, SA199
Fasting
effect on fatty acid synthetase in liver, 41
effect on polysome aggregation, 25
effect on protein synthesis, N26
in treatment of obesity, use of potassium supplementation, 177
Fat
absorption
in newborn infants, 226
relation to configuration in the triglyceride, 65
body
changes with exercise of sedentary males, 150
use for milk production, 262
composition of mitochondria from cells grown on lipid free media, 68
deposition, following ventromedial nucleus destruction, 298
dietary
effect on steroid excretion, 34
relation to exercise endurance, 180
relation to incidence of cardiovascular disease, 281
with ethanol, effect on lipemia, 162
formation from carbohydrate
effect of dietary protein on, 80
relation to feeding frequency, 234
in feces, relation to configuration of triglyceride fed, 65
infiltration of liver, after reducing diets, 185
liver, accumulation in methionine toxicity, 293
monoglycerides, conversion to triglycerides, in sheep intestine, 97
pad, metabolism, relation to caloric intake and feeding frequency, 135
synthesis
from carbohydrate, energy considerations, 214
from different carbohydrates, N303
triglyceride
blood levels
effect of glucose feeding in hyperlipoproteinemias, 204
in man, effect of cocoa butter and corn oil diets on, 34
configuration, relation to absorption, 65
in plasma lipoprotein, relation to dietary carbohydrate, 153
structure in adipose tissue, effect of dietary copper on, 244
synthesis, in sheep intestine, 97
Fatty Acids
arachidonate, in mitochondria, from cells grown in lipid free media, 68
blood level, relation to insulin secretion, 93
branched chain, synthesis from methylmalonyl-CoA, 301
composition, of pig adipose tissue, effect of dietary copper on, 244
dietary, effect on steriod excretion, 34
essential
needs during total parenteral feeding, 286
role in mitochondria, 68
free, energy source in exercise, 180
in rumen, of sheep fed urea, 192
linoleic acid, in mitochondria, from cells grown in lipid free media, 68
palmitic acid, absorption in triglycerides, 65

Feeding
frequency
relation to glucose tolerance, 135
relation to metabolism, 234
Feeding Center
regulation of body weight by, 216
Fibroblasts
mitochondria from, properties of, 68
Fish
protein concentrates, availability of fluoride in, 235
Fish Ponds
development for food supply, 155
mosquito control in, N246
Flavanones
conversion to sweet substances, 95
Flour
fortification
with iodine, in Tasmania, 212
with iron, new recommendations, N108
Fluoride (*see* **Trace Elements**)
Food
consumption
of children, during recovery from marasmus, 118
survey, in India, SA223
Indian, nutritive contents of SA3
intake
control by hypothalamic feeding center, 216

effect on temperature changes in hypothalamus, 17
mineral content of, N246
supplementation, with monosodium glutamate, 158
supply
fish ponds for, 155
relation to economics, SA143
technology, impact on society, SA31
Food and Nutrition Board
recommendations for increased iron dietary levels, N108
Fortification
iodine, in Tasmania, thyrotoxicosis from, 212
Fructose (*see* Carbohydrate)
Fructose Diphosphate
in brain, after excessive galactose feeding, 239
Fungi
biotin synthesis in, 189

Galactose-1-Phosphate
in brain, after excessive galactose feeding, 239
Genetics
familial rickets, treatment with vitamin D, 63
phenylketonuria, dietary treatment of, 151
primary hyperoxaluria, activity of ketoglutarate: glyoxylase carboligase in, 295
Germfree Rat
calcium and magnesium absorption in, 101
Glucose (*see* Carbohydrate)
Glucose-6-Phosphate
in brain, after excessive galactose feeding, 239
Glutathione
blood levels, in chicks given vitamin D, 73
Glycogen (*see* Carbohydrate)
Glycolysis
intermediates of, in brain, after excessive galactose feeding, 239
Glyoxylate
metabolism, studies of, 295
Goat
food consumption, relation to brain temperature, 17
Goiter
incidence in Tasmania, 212
Gout
plasma glutamate levels in, 158
Grapefruit
naringin in, conversion to sweet compound, 95
Growth
changes, after recovery from protein-calorie malnutrition, 118
failure, in infants, association with emotional deprivation, 36
following ventromedial nucleus destruction, 298
in resistant rickets, 63
phenylketonuric children, after dietary treatment, 151
tumors, relation to selenium, 75
Guatemala
diarrhea in children, 61
Guinea Pig
magnesium deficiency in, renal defect in, 72
methionine toxicity in, mechanisms for, 293

Hair
zinc content, measure of zinc nutriture, 209
Haiti
organization of Mothercraft Centers in, SA307
Headache
relation to coffee drinking, 38
Heart
beating cells, effect of fatty acids on, 68
disease
relation of mortality and hard water intake, 179
relation to dietary sugar intake, 228
relation to saturated fat intake, 281
succinate dehydrogenase, effect of riboflavin antagonist on, 23
Heat
production, excessive, during recovery from malnutrition, SA279
HeLa Cells
fatty acid interconversion in, 68
Hemoglobin
formation, role of ceruloplasmin in, SA87
levels
in subjects on histidine free diets, 229
relation to serum protein levels, 289
synthesis, in marasmic pigs, 43
Histology
pancreas, following ventromedial nucleus destruction, 298
Hookworm
infestation, relation to anemia in children, 289
Hormones
ACTH, role in copper metabolism, 232
adrenal, role in erythrocyte destruction in physical exercise, SA251
balance in progeria, 9
cortisone, effect on glucose levels in Squirrel monkeys, 15
dibutyryl cyclic AMP, effect on intestinal calcium absorption, dependence on vitamin D, 265
epinephrine
effect on cholesterol synthesis *in vitro*, 103
effect on erythrocyte fragility, SA251
glucocorticoid, synthesis, role of vitamin A in, 190
growth
effect on protein catabolism in muscle, 45
lack of response in emotionally deprived children, 36
hydroxycorticosteroids, role in copper metabolism, 232
insulin
blood levels
following ventromedial nucleus destruction, 298
in hyperlipoproteinemias, 204
effect on fatty acid synthetase levels, 41
effect on protein synthesis, 25
plasma levels in exercise, 180
release in fasting obese patients, effect of potassium supplementation on, 177
secretin, effect of elevated blood glucose and fatty acid levels on, 93
synthesis, relation to biotin, 242
tolerance test, relation to caloric intake and feeding frequency, 135
parathyroid
cyclic AMP as mediator of effect on calcium absorption, 265
relation to magnesium metabolism, 129
sex, relation to formation of urinary calculi, 187
testosterone, inhibition of activity by stevioside, N219
thyrocalcitonin, action in preventing hypercalcemia, 99
Horse
utilization of urea by, 194
Hyderabad
Nutrition Research Laboratories, report on first 50 years, SA3

selenium, 75
stevioside, anti-androgenic activity, N219
zinc, SA87
Trace Elements
content in foods, N246
copper
deficiency, apoceruloplasmin levels in, 291
dietary, effect on pig adipose tissue, 244
metabolism, effect of molybdenum on, 82
role in ceruloplasmin, SA87
role of adrenal in metabolism, 232
fluoride, availability in fish protein concentrates, 235
iodine, fortification program in Tasmania, thyrotoxicosis from, 212
molybdenum, effect on copper metabolism, 82
selenium, relation to cancer, 75
use in total parenteral feeding, 286
zinc
effect on ceruloplasmin activity, SA87
in hair, measure of zinc nutriture, 209
Transamination
role in metabolism of glutamate, 158
Transferrin
formation, role of ceruloplasmin in, SA87
Transport
copper, role of adrenal in, 232
fat, relation to micellar structure, 65

Urea
blood levels, after asparaginase treatment for leukemia, 206
feeding in ruminants, effect on ammonia metabolism, 192
isotopic nitrogen in, after giving isotopic amino acid, method for measuring protein turnover, SA115
utilization, by the horse, 194
Urine (*see under individual constituents*)
Utilization
copper, effect of molybdenum on, 82
fructose, by the young pig, 132
urea, by the horse, 194

Virus
infection, association with diarrhea, 61
Vitamin A
deficiency, in Indian children, prevention with large doses, SA3
role in glucocorticoid synthesis, 190
supply, in Nigeria, SA143
Vitamin B_6
metabolism, in the mouse, 163
relation to formation of urinary calculi, 187
Vitamin B_{12}
deficiency, oxidation of unsaturated fatty acids in, 165
Vitamin D
effect on activity of intestinal ATPase, 269
need for calcium absorption, 265
role in calcium absorption, 21
sulfate, natural form in milk, 73
treatment of resistant rickets, 63
Vitamin K
mechanism of action, SA171
role in prothrombin synthesis, 271
Vitamins
supplementation, for older people, 260
use in total parenteral feeding, 286

Water
balance, relation to dietary carbohydrate, 80
hard, contribution to calcium and magnesium intake, 179
loss, during flight of astronauts, 256
Weanling Diarrhea, 61
Weight
adrenals, in vitamin A deficiency, 190
body
changes during recovery from malnutrition, SA279
changes with exercise of sedentary males, 150
changes with vitamin supplementation in older people, 260
gains during recovery from protein-calorie malnutrition, 118
gains during total parenteral feeding, 286
of children, relation to excessive weight gain as infants, 184
reduction
during lactation, 262
intestinal bypass operation for, liver damage from, 185
regulation, role of feeding center, 216
Wheat
selenium in, relation to cancer, 75
Work
blood glucose and free fatty acid levels during, 180
effect on protein synthesis in muscle, 45
World Hunger
resolution at Eighth International Congress of Nutrition, SA59

Xanthurenic Acid
excretion, in castrated rats, 187

Yam
production, in Nigeria, contribution to nutrient needs, SA143

Zinc (*see* **Trace Elements**)

XUM
